

SILVER PLATED SPEAKER CABLE SILVERLINE SP-25

2.5 MM²

Excellently processed stereo speaker cable wound on a mini reel. The speaker cable is suitable for amplifier power of up to approx. 180 watts per amplifier channel. The use of silver-plated, oxygen-free OFC copper as conductor material ensures that this speaker cable has an extremely clear and natural sound. The silver plating further improves the reproduction of high frequencies. The cable is also constructed from a large number of ultra-thin stranded copper strands - approx. 0.125 mm cross-section per individual strand. Due to this elaborate processing, a particularly high conductivity and flexibility of the entire cable is achieved.

180 W

SIGNAL DIRECTION

Bi-Directional

Bending radius	20 mm
Inner conductor material	SPC/OFC - silver-plated oxygen-free copper
cable geometry	Round
cable cross section	2 x 2.5 mm ²
power max.	For amplifier performances of up to 180 watts
Features	Certified production in Europe, Stereo speaker cable, Silver content of 8g / kg, 30 years warranty
Outer sheath material	plastic
