FLEXUS SUB 100
COMPACT WIRELESS 10" SUBWOOFER

Klipsch®

BIG BASS, SMALL FOOTPRINT
The Flexus 10" Subwoofer packs a lot of punch per square inch thanks to careful Klipsch engineering. Enjoy powerful bass with plenty of depth, thanks to a high-excursion paper cone woofer, without sacrificing the low latency and musicality typically displayed by larger subwoofers.

BETTER TOGETHER: TWO SUBS ARE BETTER THAN ONE
As your tastes and square footage grow, so do the demands you'll have for deep, powerful bass. By having two identical Flexus 10" Subwoofers, you'll smooth out the peaks and nulls typically experienced by a single subwoofer arrangement.

KLIPSCH TRANSPORT TECH FOR ULTIMATE CONNECTIVITY
Klipsch Transport technology built into every Flexus product means your whole home entertainment ecosystem functions fast and efficiently. Setup is simple, latency is low, and powerful bass is only a cord away.

SIMPLE SETUP, SLEEK STYLE
Style matters. That's why Klipsch Flexus was meticulously engineered down to the last millimeter with premium materials, thoughtful design, and calculated engineering for a family of products to fit any space or aesthetic.

ECO-CONSCIOUS PACKAGING
We're committed to providing great sound for generations - which is why our packaging is designed to be earth-friendly, with careful consideration to minimize waste and maximize recyclability.

POWERED BY ONKYO®
Meticulously reviewed by our engineers at sister company Onkyo, the Klipsch Flexus system passed over 1,000 rigorous tests to ensure awesome audio performance and stellar interconnectivity.
