

FLEXUS SURR 200

WIRELESS SURROUND SPEAKERS
WITH ELEVATION SPEAKERS

SURROUND YOURSELF IN AWESOME

Adding Klipsch Flexus Surround Speakers elevates the performance of your home theater system thanks to immersive Dolby Atmos technology. By creating a true multichannel surround sound setup, you'll hear music, movies, and games placed in 3D around and above you for a realistic, multidimensional experience.

REACH FOR THE STARS

The Flexus Surr 200 speakers include two 3" up-firing drivers and two 3" side-firing drivers for the ultimate Dolby Atmos experience overhead and all around you. Immerse yourself in engaging surround sound from your favorite blockbuster, just like at the movies.

SIMPLE SETUP, SLEEK STYLE

Individually powered with no junction boxes or power adapters to conceal, the Flexus Surround Speakers are a streamlined solution for multichannel home theaters. Because the controls, power and LED lights are hidden below the surface, you don't have any distractions in a pitch-black room - just awesome sound and clean aesthetics.

WALL MOUNTABLE FOR FLEXIBLE PLACEMENT

With a 1/4"-20 threaded insert on the back and the power cord conveniently located on the bottom, Flexus Surrounds can be wall mounted for maximum immersion or used on a flat surface.

INDEPENDENTLY POWERED

We're keeping it simple: no adapters, no dongles, no speaker wires to fuss with here. Each Flexus Surround Speaker independently plugs into a wall outlet with one discrete power cable, no cables required between speakers or lying on the floor.

POWERED BY ONKYO®

Meticulously reviewed by our engineers at sister company Onkyo, the Klipsch Flexus system passed over 1,000 rigorous tests to ensure awesome audio performance and stellar interconnectivity.

SPECIFICATIONS

SPEAKER SYSTEM	2.0 Wireless Surround (Pair)
